

**Read-A-Shape with January Bear.  
Snowy Riddles About Winter Animals of the Arctic**

Do you know what animal rests below,  
in an icy cave in the winter snow?  
How does she stay warm at night  
without any heat, without any light?  
She has a fur coat from her head to  
her toes.  
She keeps it on where-ever she goes.  
She wears it here. She wears it there.  
She is an Arctic \_\_\_\_\_.

This slippery ice has a very  
nice feel to a happy little  
Arctic \_\_\_\_\_.
